

John Gryffydd Roberts
CChem., MRSC President, JGRchem.inc

John is a Chartered Chemist having 47 years nuclear experience in Magnox, CANDU (and BWR) plants. He has five nuclear “babies”, Bruce Units 5 - 8 and Cernavoda Unit 1 and four adopted nuclear “babies”, Bruce Units 4 - 1.

In 2005 John was honoured with the (now) Harold A Smith award “for persistent commitment to high standards of chemistry control for all reactor systems to achieve safe margins and long plant life”.

For the year 2012-2013 John served as CNS President and continues to volunteer in various capacities. John also serves on the Radiochemistry Group Committee of the Royal Society of Chemistry.
